## **GLA-Data Customizable Features at a Glance**

GLA-Data is customizable, user-friendly, widely accessible, and secure.

- 1 Map-based front-end, with interactive tools for: **1a** Spatial queries **1b** Zoom to known wells/monitoring points Basemap selection
- 2 Document and photo library indexed to wells/ monitoring points

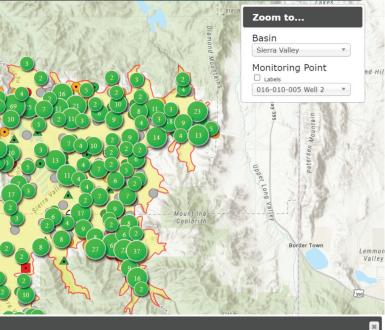

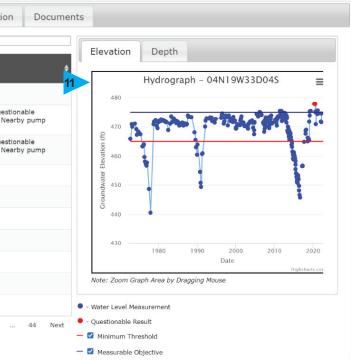

- 4 Standard and/or customized reporting and advanced graphing tools
- 5 Manage database settings, regulatory values, and user information
- 6 Filter points displayed on map by associated data and/or attributes
- 7 Overlay public and/or custom spatial data stored in online **Representational State Transfer servers**
